EDUCATION

2026 - 2028 Expected

OREGON STATE UNIVERSITY

- Bachelors of Science in Biology
- Data Science and Integral Calculus in progress.

2023-2026

FRONT RANGE COMMUNITY COLLEGE

- Associate of Science
- Associate of General Studies
- GPA: 4.0
- Summa cum laude in both degrees; President's List every semester.
- Coursework: Statistics, Calculus I, Genetics, Microbiology

SKILLS

- Microsoft Excel; DNA sequence analysis; survey data interpretation; BioRender; Python (self-taught); GitHub basics; computer troubleshooting and software repair (self-taught).
- Experimental design; literature review; research documentation; interviewing; scientific writing; project coordination; collaboration with community partners.

SUMMARY

Biology undergraduate with NIH research training, molecular virology experience, and nonprofit board leadership. Experienced in experimental design, DNA sequence analysis, survey research, and translating findings into recommendations. Interested in applying data science to marine microbiology and microbial ecology, with skills in Excel and foundational experience in Python and GitHub.

EXPERIENCE

The Arc of Larimer County 2026 - PRESENT

Self-Advocate on the Board of Directors

- Serve on the Board of Directors, advocating for accessibility, inclusion, and self-determination for people with intellectual and developmental disabilities.
- Support disability-policy advocacy through legislative committee service, research, and written communication.

Colorado State University 2024 - 2025

Research Trainee

- Designed and conducted an independent antimicrobial study comparing live Lactobacillus plantarum cultures and cell-free supernatants against four foodborne pathogens using disk diffusion assays.
- Analyzed sequencing results from seven plasmids to verify constructs and assess mutations in a molecular virology laboratory.
- Worked with cell cultures, prepared plates and agar overlays, and kept detailed research notes. Created BioRender figures to explain laboratory methods.

Phi Theta Kappa | Alpha Tau Kappa 2024 - 2025

Vice President of Treasury and Fundraising

- Conducted two of three interviews for a study of successful food banks and analyzed student survey data to identify barriers to campus food access.
- Developed campus pantry-improvement recommendations with a fellow officer and partners from three local food-assistance organizations.
- Helped coordinate a three-week food drive that collected 200 pounds of supplies; edited our Honors in Action submission to clearly explain the research within a strict word limit.

Project SAFE 2021-2021

ERAP Assistant

- Interviewed clients for assistance cases and coordinated housing, medical care, transportation, and employment resources with community agencies.
- Handled more than 20 calls daily, protected confidential client information, and checked financial assistance cases for discrepancies.
